To Whom It May Concern:

Archway Properties acted as Developer on two projects for us. The first was construction of our new administration building and the second was the doubling in size of our existing manufacturing facility here at GEODynamics in Millsap, Texas. The project involved the planning and development of the buildings, as well as the construction, and a long term lease on the facility.

For both projects, Archway assembled a highly experienced team of professionals to accomplish the task. We were involved in the planning and design phase and they kept us informed during the entire process and took care to accommodate our needs as well as our change orders throughout the construction. Don and Eric were very professional and demonstrated their knowledge during the project in all its phases.

We are very pleased with the results and would recommend Archway Properties to any company that is wishing to develop land, construct new facilities, or expand existing facilities for their business, and would be pleased to be contacted with any inquiries that you may have in regards to our relationship with Archway.

Sincerely,

Durg Kumar  
Chief Financial Officer
